

The 'special components' kit for the ASM-2 contains the following harder-to-get components:-

1. 2 off MAT-02
2. 3 off J108 transistors
3. 2 off 1K, 3500ppm TEMPCO plus 2 off 62R 100ppm (giving a 3300ppm result)
4. 3 off LM329-6V9
5. 4 off CA3080

Buyers are asked to check the ASM2-BOM to see if there are any other components that they would like to be included in their order or if items can be deleted from the above list.

Please note that these components are included in the ASM2-COMPONENT kit.
